

18:50 Anatomical landmarks in frozen pelvis: from normal to distorted anatomy
J. Gilabert Estellés, Valencia, Spain

19:10 Discussion

DAY 3

June 8, 2023. Thursday

08:00 **International course on endoscopic surgery**

Adamyany L.V., Tozzi R., Wattiez A., Hamou J., Bettocchi S., Malzoni M., Koninckx Ph., Cela V., Romeo A., Kozachenko I.F., Arakelyan A.S., Kozachenko A.V., Popryadukhin A.Yu., Bykov A.G.

09:00 **Live surgery: postoperative "niches"**

Wattiez A.

10:00 **Plenary session**

New technologies in diagnosis and treatment of oncogynecological patients

10:00 Ovarian cancer: modern methods of treatment
Ashrafyan L.A., Moscow, Russia

10:15 Treatment of patients with ovarian cancer: from laparoscopy through genomics to radical surgery
R. Tozzi, Padova, Italy

10:35 Anatomic laparoscopy in today's changing world of oncology
S. Puntambekar, Puna, India

10:55 Radical surgery in patients with LACC: surgical and survival outcomes
R. Tozzi, Padova, Italy

11:15 The role of chemotherapy and radiation therapy in gynecologic cancer: an algorithm of diagnosis, treatment, and rehabilitation
S. Marnitz, Berlin, Germany

11:35 Best fertility sparing therapy in women with cervical cancer larger than 2 cm
C. Köhler, Hamburg, Germany

11:55 Organ-sparing surgery in ovarian cancer
Khabas G.N., Moscow, Russia

12:10 Cervical cancer – possibilities of modern surgery
Ovodenko D.L., Moscow, Russia

12:25–12:35 Service break

12:35 **Plenary session**

Current gynecological issues on the basis of new technologies

12:35 Clinical experience with cervical adenocarcinoma in situ
M. Friedman, Haifa, Israel

12:55 The new era of gynecological endocrine disorders-polycystic ovarian symptom
I. Ota, Kurashiki, Japan

13:15 The meaning of RIF and ERA – test
Z. Ben-Rafael, Tel Aviv, Israel

D. Valsky, Jerusalem, Israel

13:55 The impact of fibroids on female general health
A. Vereczkey, Budapest, Hungary

14:15 The role of molecular genetic methods in detecting risk factors for uterine myoma development and recurrence in women of reproductive age
Kuznetsova M.V., Tonoyan N.M., Trofimov D.Yu., Adamyan L.V., Moscow, Russia

14:30 Complications during pregnancy and IVF
A. Setubal, Lisbon, Portugal

14:50 Fertility and endometriosis – surgery, egg donation and gestational carrier
T. Singer, New York, USA

15:10 Pelvic peritoneal components of thoracic endometriosis
T. Seckin, New York, USA

15:30 Discussion

15:45 A non-invasive pacemaker for electrical regulation of myometrial activity
F. Naftolin, New York, USA

16:05 Opportunities of gene-editing in the human embryo
D. Marin, North Brunswick, USA

THURSDAY

JUNE 8

DAY 3

New Technologies for Diagnosis and Treatment of Gynecologic Diseases

- 16:25** Novelties in preimplantation genetic testing
D. Marin, North Brunswick, USA
- 16:45** Clinical application of an artificial intelligence model in immunological testing in a patient population with reproductive failure and recurrent pregnancy loss
A. Vidali, New York, USA
- 17:05** Hyperplasia of endometrium: what is it today?
M. Munro, Los Angeles, USA
- 17:25** Endometrial pathology in questions and answers by Malcolm Munro
M. Munro, Los Angeles, USA
- 17:45** Endometriosis – associated pain syndrome and adhesive process – treatment and prevention
Yarmolinskaya M.I., Saint Petersburg, Russia
- 18:00** Adhesions and intrauterine synechias
Khashukoeva A.Z., Moscow, Russia
- 18:15** The influence of sex hormones on the mammary glands and methods for their correction: how to achieve the best results?
Smetnik A.A., Moscow, Russia
- 18:30** The role of gestagens in HRT and MHT. Analysis of clinical cases.
Andreeva E.N., Moscow, Russia

THURSDAY
JUNE 8
DAY 3
