

# DAY 4

June 9, 2023. Friday

**08:00–09:00** **Young scientists' contest**

**09:00** **Keynote lecture**

New horizons of surgical intellect. The “true gift” of surgery  
*A. Stepanian, Atlanta, USA*

**09:20** **Plenary session**

## New approaches to diagnosis, treatment and rehabilitation of gynecological patients

**09:20** Future trends of gynecologic surgery – what you need to know  
*V. Senikas, Ottawa, Canada*

**09:40** Intrauterine surgery for malformations: new approaches, new instruments, and operations (original data)  
*Makiyan Z.N., Gus A.I., Moscow, Russia*

**09:55** Uterine and vaginal malformations – preoperative modeling and intraoperative navigation with 3D ultrasound and MRI  
*Popryadukhin A.Yu., Arakelyan A.S., Bychenko V.G., Gus A.I., Moscow, Russia*

**10:10** New possibilities of endoscopic and X-ray surgical techniques in the complex treatment of patients with uterine malformations, pregnancy in the scar after caesarean section and in the cervix  
*Kozachenko A.V., Bychenko V.G., Akinfiyev D.M., Moscow, Russia*

**10:25** Uterine and vaginal aplasia – four variants of colpoptosis (original data)  
*Arakelyan A.S., Moscow, Russia*

**10:40** The so called Robert's uterus. Types of classification and surgical correction  
*Kiselev S.I., Moscow, Russia*

**10:55–11:05** Service break

**11:05** Lessons learned from follow up and team building after 500 colposacropexies  
*P.N. Barri Soldevila, Barcelona, Spain*

**11:25** The art of native vaginal surgery in 2023  
*E. Delorme, Chalon-sur-Saône, France*

**11:45** Demystifying contraindication to MHT  
*A. Genazzani, Pisa, Italy*

FRIDAY

JUNE 9

DAY 4

FRIDAY

JUNE 9

DAY 4

**12:05** Menopausal metabolic syndrome  
*Smetnik A.A., Moscow, Russia*

**12:20** MHT and osteoporosis: evidence in prevention  
*Kuznetsov S.Yu., Moscow, Russia*

**12:35** Innovative methods for the correction of menopausal disorders  
*Ermakova E.I., Moscow, Russia*

**12:50** Practical guidelines for breast cancer risk assessment before menopausal hormone therapy  
*Yureneva S.V., Moscow, Russia*

**13:05** Rational choice of drug therapy for abnormal uterine bleeding in early reproductive period  
*Uvarova E.V., Moscow, Russia*

**13:20** Perimenopause problems and their solution: gestagens? COC? MHT?  
*Smetnik A.A., Moscow, Russia*

**13:35** Pregnancy loss in 2023  
*Tetruashvili N.K., Moscow, Russia*

**13:50** PCOS and hypothalamic amenorrhea  
*Chernukha G.E., Moscow, Russia*

**14:05** The continuum of pregnancy failure and preterm birth  
*Khodzhaeva Z.S., Moscow, Russia*

**14:20** Abnormal uterine bleeding: a differential approach to therapy selection  
*Chernukha G.E., Moscow, Russia*

**14:35** Current options for the prevention of dysbiosis during antibiotic therapy  
*Kuzmin V.N., Moscow, Russia*

**14:50** The role of hysteroscopy in women of reproductive age. Prevention of synchias  
*Kozachenko I.F., Adamyant L.V., Moscow, Russia*

**15:05** Laparoscopic myomectomy. Prevention of adhesions  
*Puchkov K.V., Moscow, Russia*

**15:20** MHT and thrombosis: risk management  
*Kirsanova T.V., Moscow, Russia*

**15:35** Diagnosis and treatment of cervical pathologies: current consensus  
*Prilepskaya V.N., Moscow, Russia*

**15:50** Cervical pathology. Parallels with past and future possibilities  
*Bayramova G.R., Moscow, Russia*

**16:05** Adapting 3D ultrasound postpartum to appropriate therapy models such as modern non-invasive postpartum rehabilitation  
*B. Arabin, Berlin, Germany*

**16:25** Efficacy and safety facts of modern hormonal contraception based on international experience.  
*Apolikhina I.A., Gorbunova E.A., Moscow, Russia*

**16:40–16:45** Service break

**16:45** **Plenary session**

## **New robotic and endoscopic treatment methods in gynecology**

**16:45** 10 Years of Robotic Surgery at MONIAG  
*Popov A.A., Moscow, Russia*

**17:00** Robot-assisted surgery in operative gynecology: the Center's experience  
*Ponomaryova Y.N., Arakelyan A.S., Martynov S.A., Moscow, Russia*

**17:15** Robot-assisted surgery for correction of uterine and vaginal malformations in children and adolescents  
*Komlichenko E.V., Adamyan L.V., Kokhraidze N.A., Moscow, Russia*

**17:30** New technologies in the diagnosis and treatment of intrauterine pathology  
*Dzhibladze T.A., Zuev V.M., Ishchenko A.I., Moscow, Russia*

**17:45** Operative hysteroscopy in obstetric and gynecological practice  
*Davydov A.I., Ignatko I.V., Moscow, Russia*

**18:00** Medical treatment of uterine myoma: opportunities of 2023  
*Andreeva E.N., Moscow, Russia*

**18:30** Discussion

**18:40** **Closing ceremony**
